THE START OF SOMETHING SPECIAL

A decade ago, we turned our attention from crafting custom motorcycles in an East London garage to using our skills and passion to design solid metal architectural details.

For us, details are everything. They're the foundation for compelling, tactile interiors. Our hardware, switches and lighting collections are designed for you to seamlessly combine elements and create a refined aesthetic. Adding Buster + Punch elevates everything; from the overall look and attitude to function and feel, nothing comes close.

Buster + Punch's pieces are crafted with care to make a positive impression on your world and have minimal impact on the one we share. We create future heirlooms made to perform and be loved for generations.

BUSTERANDPUNCH.COM

BEHIND THE LOOKS

Buster + Punch has three looks: CROSS, LINEAR and CAST. Each look has its own set of influences and aesthetic attributes to help you create the perfect interior styling.

CROSS

Cross is industrial, made from solid metal bar with a cross knurling created using a diamond-tip CNC lathe, it features a solid metal coin screw detail.

LINEAR

Linear has an elegant, long knurl that runs along its slimmed-down solid metal bar and has a tapered torx screw detail.

CAST

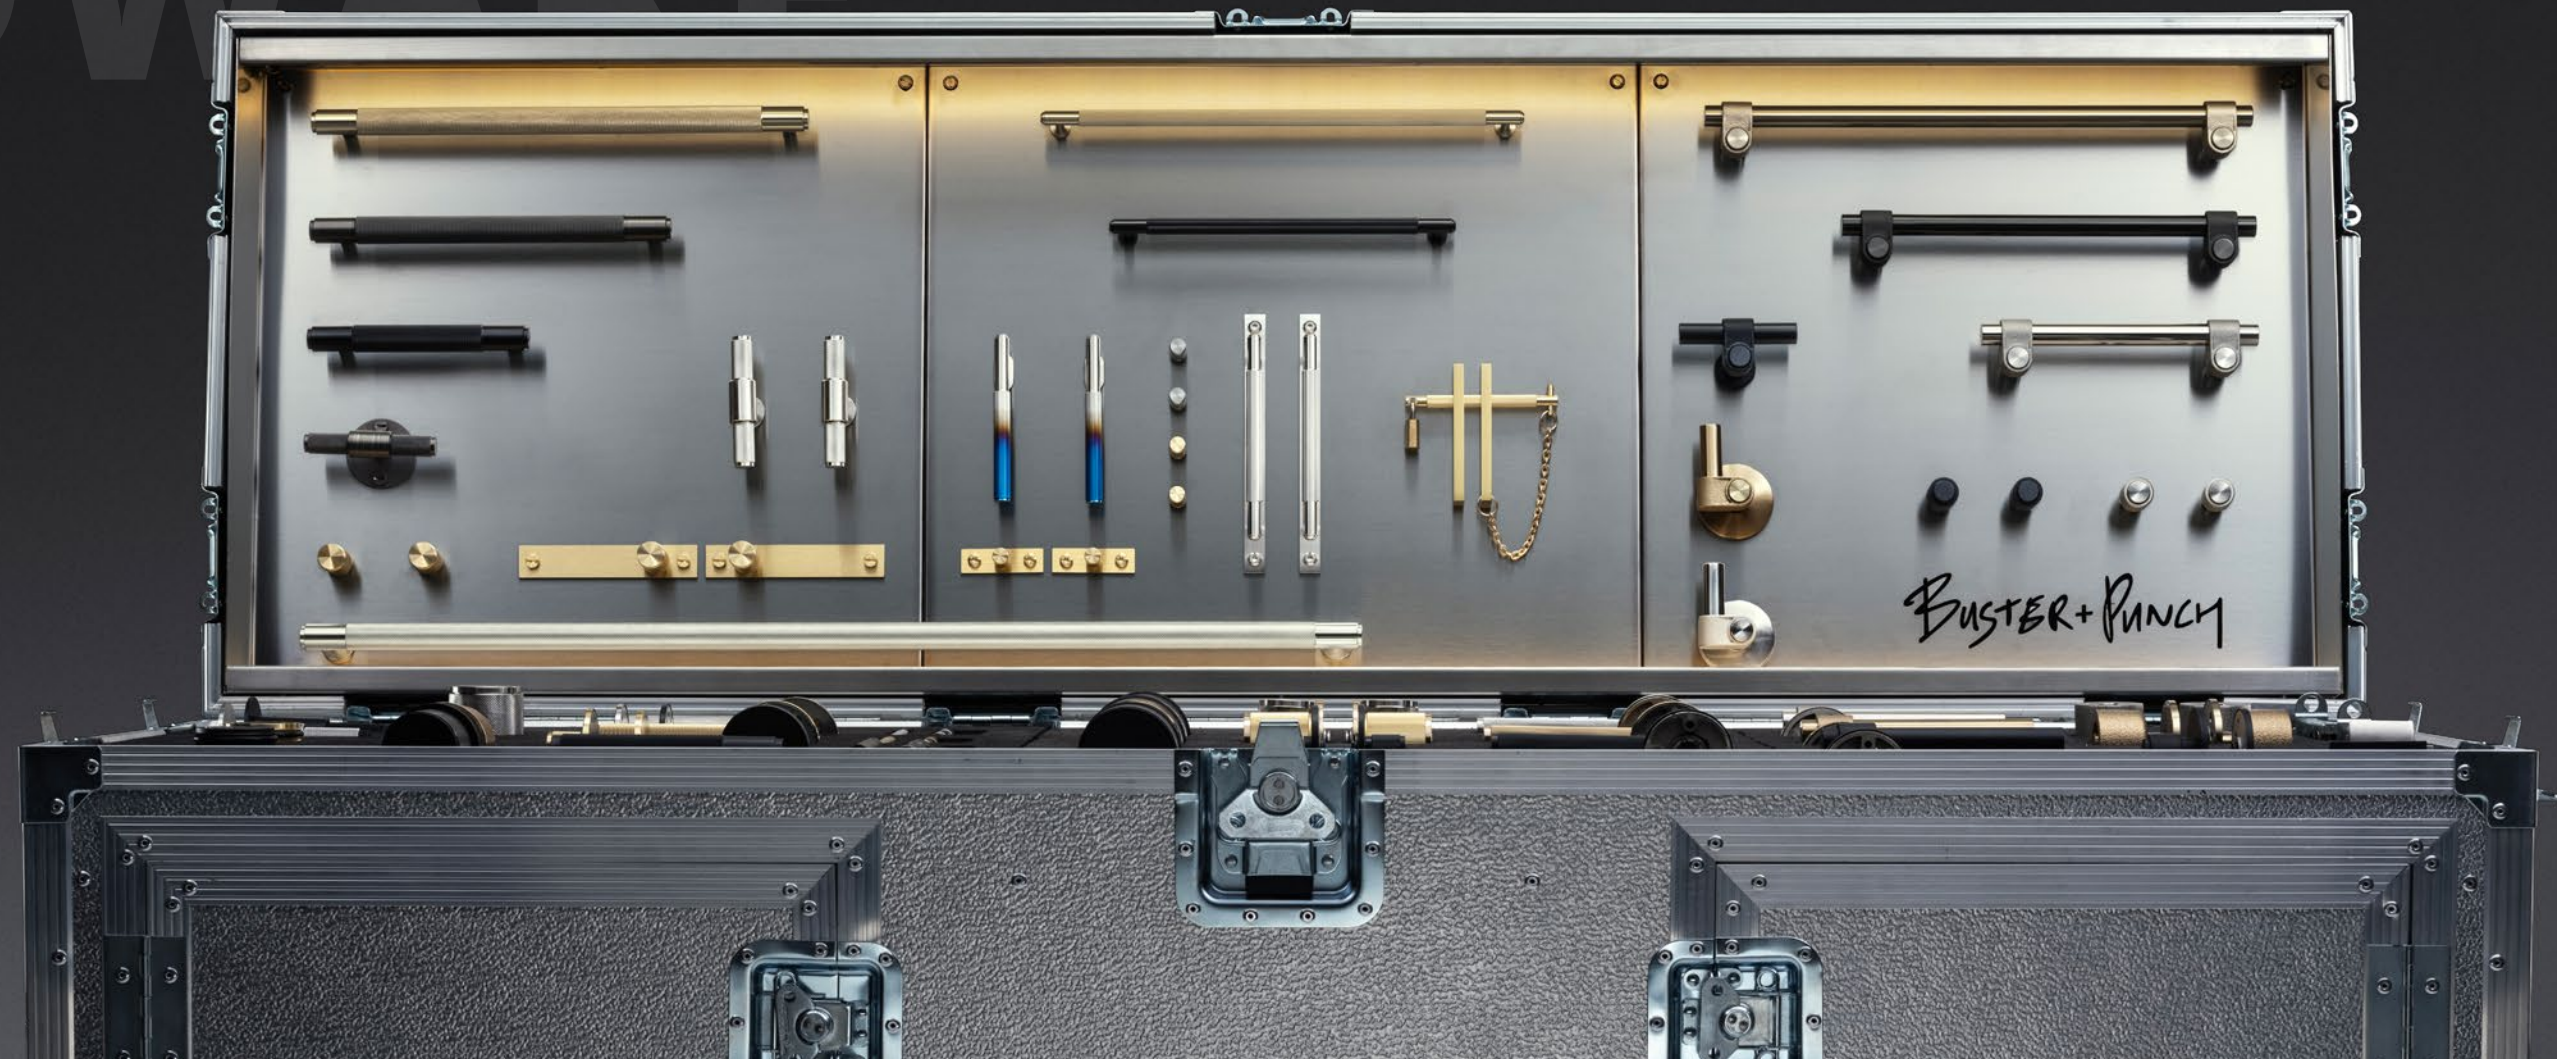

Cast is an architectural design where rough-cast elements meet a smooth, hand-polished solid metal bar. Cast pieces are finished with our solid metal spun screws. The nature of the casting process means each piece is totally unique.

CABINET HARDWARE

CABINET HARDWARE

Precision-engineered solid metal cabinet hardware for kitchens, bathrooms and furniture. Create a seamless foundation of detailing with signature B+P looks and finishes.

CABINET HARDWARE
LINEAR

Linear cabinet hardware adds a real sense of elegance and refinement to everything it touches. The collection is made from solid metal bar, with torx screw detailing, and a crisp, diamond-cut linear knurling pattern that catches the light. All refined by hand and packaged for a great unboxing experience. The range includes cabinet knobs, L-bars, pull bars and the striking B+P precious bar.

CABINET HARDWARE
CROSS

The original solid metal hardware collection, our iconic Cross look lays the foundation for styling with details at the core of a space. With a refined industrial aesthetic that feels as good as it looks, the diamond-cut cross knurling pattern adds presence and drama in versatile finishes that transform your interiors. Cross hardware includes furniture knobs, pull bars, closet bars, hooks and T-bars.

CABINET HARDWARE
CAST

Cast cabinet hardware brings a distinctive architectural look to your interiors. The contrasts of rough and smooth have a dynamic aesthetic that adds strength to any style of setting. The range features one-of-a-kind rough cast knuckles and grips, hand-polished solid metal bars and is finished with spun screw detailing. The collection includes furniture knobs, pull bars, closet bars and T-bars.

DOOR HARDWARE

DOOR HARDWARE

Crafted from solid metal and refined by hand, our door hardware is your interior's tactile handshake. Complete your B+P door styling with matching hinges, escutcheon plates and thumbturn locks.

DOOR HARDWARE
LINEAR

Linear door hardware is elegant and refined. With a linear knurling pattern and slimmed proportions, it has a stylish and confident hand feel. Door handles have a unique oval stem, and its torx screw adds a gentle taper to the design. The range includes door handles and door knobs, which can be combined with our hinges, strike plates and escutcheon plates for a harmonious B+P door look.

DOOR HARDWARE
CROSS

Cross door hardware has industrial cues, with sharpness and precision in its solid metal construction. The look is resolved with our coin screws, brushed elements, and refined by hand. Use it to create a seamless interior, with details and hardware that flow through your spaces. The range includes door handles, door knobs, door stops, locks, hinges and strike plates, plus escutcheon plates, to ensure no detail is overlooked.

SWITCHES + SOCKETS

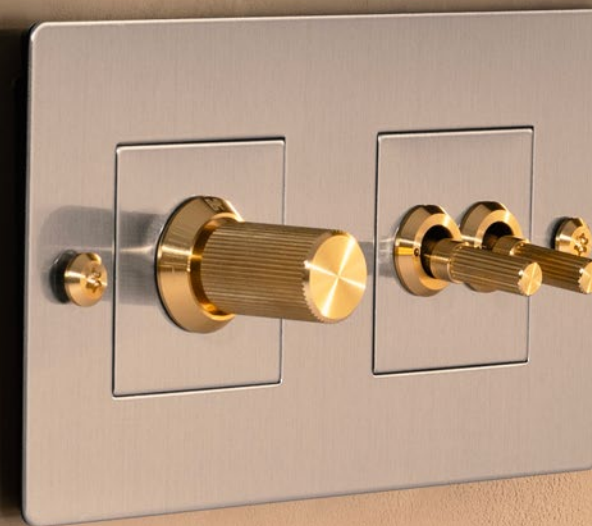

SWITCHES + SOCKETS

The customisable Buster + Punch switches, sockets and outlets collection is the pinnacle of interior detailing. Sleek and tactile, endlessly versatile, with an analogue action that connects you to your surroundings, they speak to the soul.

NEW LAUNCH **LINEAR**

Buster + Punch returns to the mixing desk this summer to rework its iconic solid metal toggle switches, dimmers, and outlets – this time with the brand's signature precision-crafted linear knurl. Drawing inspiration from classic analogue amplifiers and the world of Swiss horology, these must-have interior details have been reimagined with meticulous attention to detail.

SWITCHES + SOCKETS

LINEAR

Linear switches, dimmers and sockets all feature a solid metal back plate, modular construction and are crowned with our signature Torx screws. The collection has been designed to complete our Linear range of interior details, hardware, lighting and accessories, bringing seamless elegance to any space.

The collection is available in our solid metal finishes as complete units or can be purchased as Linear Detail Kits to customise or change the look of existing Buster + Punch dimmers, switches, and sockets.

LIGHTING

LIGHTING

Buster + Punch lighting anchors an interior with elegance and finesse. Sculpted from solid, cast and spun solid metals, the range is designed to be combined throughout spaces and interiors to bring versatility and aesthetic power in equal measure.

LIGHTING
EXHAUST

Exhaust is a flexible range of spotlights and pendants that bring versatile task lighting to any space, with styling to match. Its solid metal powder coated body is brought to life with functional detailing. The light features a knurled solid metal baffle to direct light, housing a honeycomb structure to reduce glare, and comes in a pendant, surface, spotlight or track light variation.

LIGHTING
FORKED

A tribute to solid metal and the techniques used to bring it to life, the modular Forked collection enthalls the eye, with a form that’s one of our largest in terms of physical scale and presence. Choose from a ceiling or pendant light, add a shade, globe or both, in the finish of your choice. Machined and handmade elements are fused into one design, finished with our one-of-a-kind rough cast fork detail. Each light comes with its own specially-designed B+P LED light bulb. For situations where you want a soft decorative light, the smoked globe variants are a good direction to explore. For a more functional ambient light choose a Forked with an opal globe. Adding a shade can also help to shape Forked’s light qualities, making it more directional.

LIGHTING
HOOKE

A lighting range that opens a sense of dynamic playfulness into an interior, Hooked's precisely machined hook is as functional as it is decorative. Select from wall or pendant options and add shades as you explore different vertical drop heights. Hooked's light fitting is made from solid metal, with diamond-cut cross knurling and a grooved section to allow easy fitting of its shade. In spaces with higher ceilings, explore Hooked's eye-catching chandeliers with bare pendants or pendants with shade combinations.

LIGHTING
HERO LIGHT

Sometimes a space needs a Hero. Hero's solid metal, powder coated ring has subtle references to the traditions of blacksmithing and forging. Choose whether you want to hang its six solid metal cross-knurled pendants centrally or run them around the light's circumference. With matching solid metal cord weights and coin screw detailing. Hero is a perfect complement to our Hooked range, which shares similar details.

LIGHTING
HEAVY METAL

Heavy Metal is more than a pendant. It's a statement. The light's solid metal construction, diamond-cut cross-knurled body and range of finishes have made it a permanent Buster + Punch favourite across the world. A simple but provocative design that works effortlessly in all spaces and settings. Select from linear or cross-knurled in multiple finishes.

LIGHTING
CHANDELIERS

Buster + Punch Chandeliers are powerful pieces; decadent and impactful. Designed around 10, 19 or 31 of our Heavy Metal or Exhaust pendants, with bespoke drop heights and two formations, cascade and classic. The Exhaust Chandeliers are perfect for scenarios that need more of an intimate light, like above dining tables, or social zones. In contrast, Heavy Metal Chandeliers add an ambient glow that's well-suited for interiors that need a real statement piece.

LIGHTING

BULBS

Our patented designer LED light bulbs were the world’s first, and are the perfect complement to our lighting collections. They’re designed to be as good looking as they are energy efficient, with a range of shells in glass or polycarbonate to help you create the perfect lighting ambience. From the ground-breaking Buster Bulb to the compact Puck and our elegant Tube, there’s nothing quite like them. Let there be light.

KITCHEN
TAPS

The Buster + Punch mixer tap has a striking visual edge and is designed to complement our kitchen hardware and lift it to a new level of refinement. A rough cast base, hand polished neck, diamond-cut knurling on the aerator cap and either a cross or linear-knurled lever combine in this striking kitchen talking point.

ABOUT FINISHES

We make all of our products from the same solid metal finishes - steel, brass, gun metal, smoked bronze, black, welders black and on special occasions, burnt steel. This makes it super easy to match all your home details from light pendants to light switches, kitchen pulls to door handles.

DIRECTORY **FINISHES**

Check availability for limited inventory or discontinued products.

BURNT STEEL

Solid stainless steel exposed to excessive heat and finished with a protective PVD coating to create our unique, durable, burnt steel finish. Check availability for limited inventory or discontinued products.

STEEL

Made from solid stainless steel and refined by hand, this is our most durable finish. It will maintain its crisp appearance for many years, from the moment you take it out of the box.

GUN METAL

Gun Metal is made from solid stainless steel which is then finished in gun metal PVD. This is an exceptionally durable process, and it will retain its elegance and soft lustre for many years.

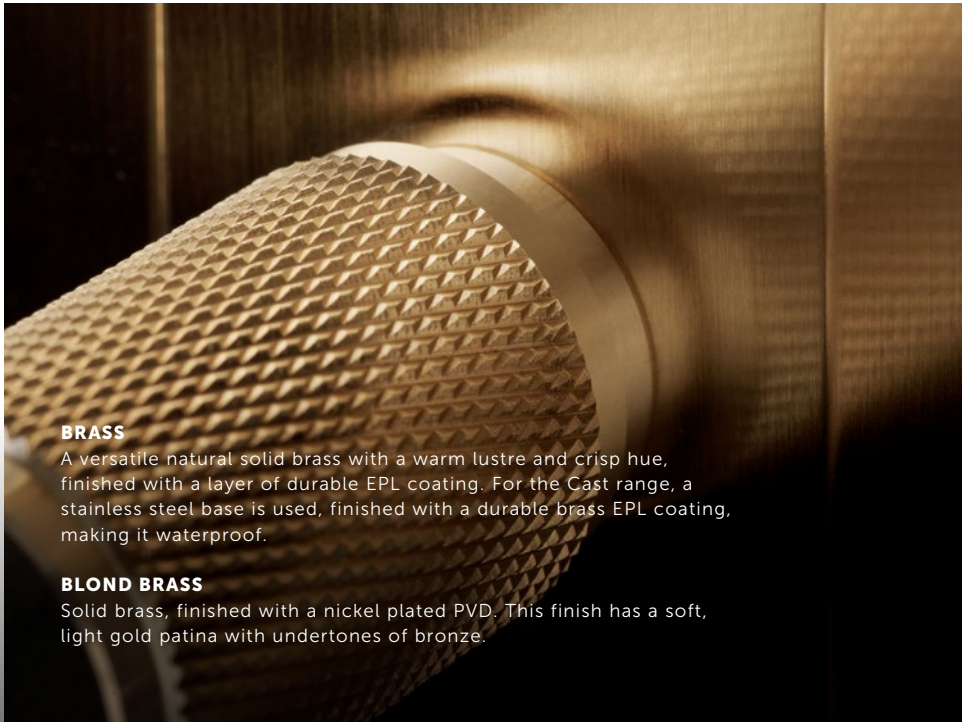

FYI In some cases other metal, coating and lacquer combinations may be used, if better suited to a specific function or product. I.e. Taps are made from a brass base finished with either nickel plating, baked on paint coating or PVD coating and in some cases Door Hardware is finished with a more durable PVD.

WELDERS BLACK

Solid stainless steel with a durable PVD coating technique, to create a soft and subtle, charcoal-black finish. For the Cast range, a stainless steel base is used, finished in a durable Welders Black EPL coating making it waterproof.

BRASS

A versatile natural solid brass with a warm lustre and crisp hue, finished with a layer of durable EPL coating. For the Cast range, a stainless steel base is used, finished with a durable brass EPL coating, making it waterproof.

BLOND BRASS

Solid brass, finished with a nickel plated PVD. This finish has a soft, light gold patina with undertones of bronze.

SMOKED BRONZE

Solid brass, hand finished with a special oxidising formula, and finally heated to give a beautiful dark bronze appearance. Finished with a durable, EPL coating.

BLACK

Machined from aluminium and then anodised for a very consistent, hard wearing, deep black finish with a satin sheen. Electricity plates are solid metal and finished in a durable matt black EPL coating.

DETAILS FOR LIFE

FOR OVER A DECADE, OUR PASSION FOR METALS, ORIGINALITY, AND UNIQUE PERSPECTIVE HAVE CARVED OUT NEW PATHS IN INTERIOR DESIGN.

I searched endlessly for a collection of details like this that would integrate seamlessly when I was an architect. Now, everyone can use Buster + Punch's details to lay the groundwork for creating elevated, refined spaces.

When I enter an interior, my focus always falls on the things we touch – those details reveal the true quality of a space. This is why we work with solid metal; its distinctive temperature and weight resonate when you interact with it.

Details like light switches and door handles used to be an afterthought, bought by builders in soulless DIY stores. My mission at Buster + Punch is to change how these forgotten details look and how you feel about them. Good detailing brings you closer to the built environment around you.

We are metal makers first and foremost. We urge you to pick up our products and experience them in the metal because you'll connect with them multiple times daily. Think of Buster + Punch as the part of your home that shakes hands with your friends when they walk in.

Bringing Buster + Punch into your home will change how you experience your surroundings. These are functional details with an aesthetic edge, allowing you to express your identity and originality. We hope you'll feel our passion for quality and refined attention to detail when interacting with them.
